#### **Beautiful Guide To Prayer**

Reviewed in the United States on March 1, 2025

I love this book. It's very simple, easy to read and understand. I do struggle with finding the right words to say during prayer sometimes and want some guidance, but at the same time too embarrassed to ask because I should just know right? Well I don't, and this book was exactly what I needed.

It does a great job of explaining not just how to pray, but also why prayer is important, reinforcing key teachings in a way that's easy to understand. You'll want to have a bible nearby because you will be using it as you go through the book. Highly recommend for anyone looking to deepen their prayers.

### **GROUP TIME GUIDELINES**

#### WELCOME/READ SAFE GROUP GUIDELINES (5 minutes)

After welcoming the group, especially any new people to the group, take time to read the Safe Group Guidelines in the introduction section on page xi.

Even if your group has been meeting for a long time, the guidelines are a great way to pause and remind everyone to take care when listening and sharing with each other during discussion time. Also, these guidelines communicate a sense of safety, which can increase group connection and participation, especially for those who are new to the group.

#### PRAYER (5 minutes)

You can invite someone to pray before the start of the group. If someone wants to pray but hesitates, you can encourage them to read a prayer from one of the study day's that week.

#### **DISCUSSION TIME (40 minutes)**

As the group leader, you can start with the icebreaker question, which is intended to warm the group up for the conversation to come. If your group tends to rabbit trail, then you can skip the icebreaker and jump right into discussion time.

- You may not have time to cover all the questions in the leader guide and that's okay. Everyone can answer each question or you can go around the group and ask a different question to each person. Whatever you decide is up to you.
- If you find that one or two people dominate the discussion, it's recommended to introduce a two-minute timer so everyone has an opportunity to share if they choose to participate.
- We want to be doers of the Word, not just hearers, so this portion of your group time gives participants a chance to declare where they believe God is calling them to think, believe, or live differently.

#### SHARE PRAYER REQUESTS/CHOOSE PARTNERS (10 minutes)

#### **Option 1: Share Prayer Requests**

You can distribute notecards at the beginning of each week and ask women to write down a prayer request or share a celebration. After group discussion time, the ladies can either pass the cards to the left or right OR put the cards in the middle and everyone draw one. This ensures that everyone is prayed over during the next week.

#### **Option 2: Create Prayer Partners**

Match the women up in pairs or groups of three to pray for each other. Women can share specific prayer requests either in person, via email or text with their group. You don't have to closely monitor, but a text or email reminder to pray would be helpful.

Online participants: If you're meeting virtually, you can pair up participants and prayer requests can be exchanged via text message.

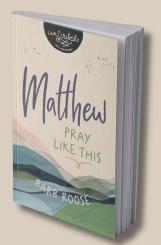

#### PREVIEW NEXT WEEK'S STUDY

It would be helpful for group members to open their Bible study guides to the next lesson. You can read the lesson title and the memory verse to help them look forward to the next week's lesson before you end the group meeting.
